

REVIEW OF UPDATES | 8TH APRIL 2026 (KB)

COLOUR KEY

Changes Made & Tested

Changes Made & Not Working

Changes Not Made

INITIAL TESTING | 28-03-2026 (KB)

Sign up page:

Signed up on the landing page and when the info was submitted a small message popped up on the top of the page saying “Thanks – Our team will review your request”

-----The preferred option is for the user to be redirected to another page that is more prominent that confirms the submission as well as share other information such as article about change; join our mailing list; etc.

Email Backend (Super User):

Email received to navi@igcollaborative.com from the sign-up page.

-----Perhaps we should add a question, where did you hear about us? Referral; LinkedIn; IG; Google; Email; Partner Website

Super Admin Backend:

Under the Pending sign-ups there is no data or link to the sign up that I created.

-----The data should be captured in a leads tab under the Super Admin Dashboard. Ensure it has a date and time stamp.

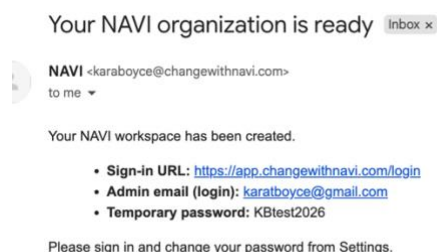

-----Organization & Admin Email is a duplication so just use “Organization Admin Email”

-----Departments shouldn’t be at the super admin level. It should be updated by the Organisation Admin once they activate. It should be a part of their profile update.

-----When the organization is added, should be able to click on the organization name in the organizations tab and see all the organization details.

Email Backend (Organization Admin):

Email received with credentials. See capture below:

However, the email should be more welcoming. See below email to be used:

Dear [Client Name/Team],

Welcome to NAVI.

Your workspace is now live and ready to support your organization in driving change with clarity, structure, and accountability. We're excited to partner with you as you move from strategy to execution.

Your Access Details

- **Workspace:** [Insert Link]
- **Username:** [Insert Email]
- **Temporary Password:** [Insert Password]

For security purposes, you will be prompted to update your password upon first login.

Getting Started

We recommend taking a few minutes to:

- Log in and secure your account
- Set up your first change initiative
- Assign ownership across your leadership team

Book Your Onboarding Session

To ensure you and your team get the most value from NAVI, we encourage you to schedule your onboarding session within your first 7 days:

[Click to Book Onboarding](#)

If a session is not scheduled within this period, a member of our team will reach out to support you.

What to Expect

Over the next few days, you'll receive a small number of emails from us to help you get set up and start seeing value quickly. Our goal is to guide you—without overwhelming you.

This is where execution begins—not just planning.

We look forward to supporting your journey.

Warm regards,

The NAVI Team

powered by [IGC Group Inc.](#)

.....

Organization Admin:

Tab – Initiatives – Create New Initiative

-Where do organizations add managers so they can populate in the drop-down menu for Change lead?

-After inserting initiative title and description it doesn't allow me to "Save as Draft"

-----May be best to set up a guide when the first log into the platform. Step by step that prompts their flow:

1. Reset your password
2. Set up your company departments here
3. Upload your Managers file (Name, Email, Department, Position)
4. Upload your Employees file (Name, Email, Department, Position)
5. Create a new initiative here

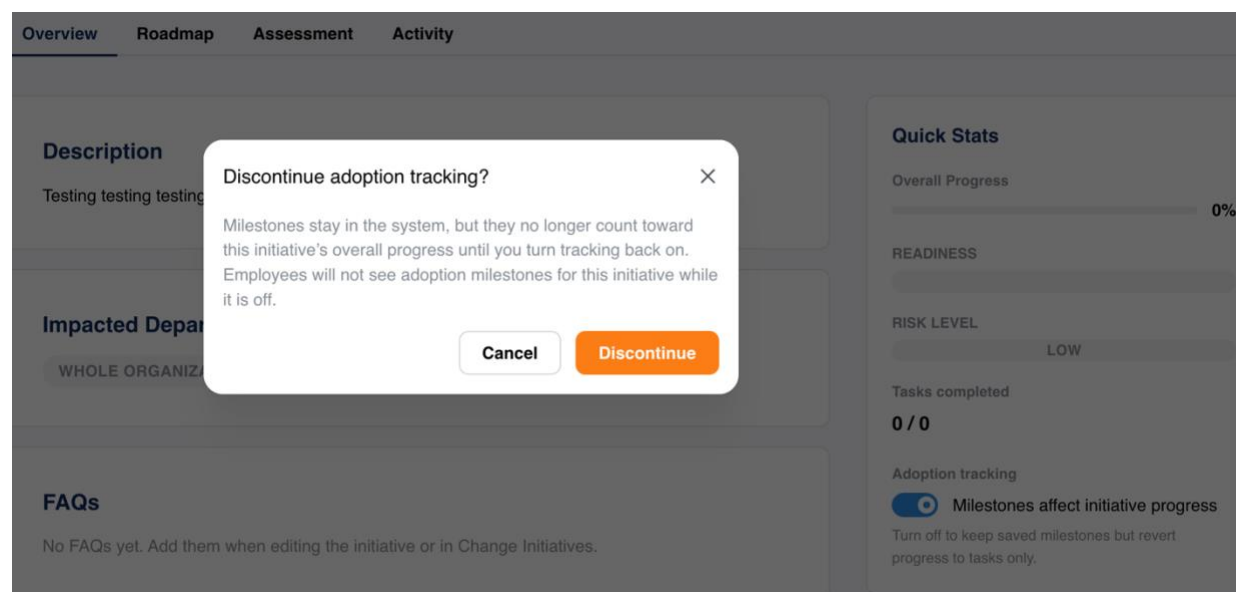

-----The FAQ section under the Create a New Initiative should allow them to upload a file instead of having to add the questions one by one. Give them both options.

-The "Share" button isn't working.

Tab – Initiatives – Overview

-When the toggle is off we get this message. However, there is no message when the toggle is turned back on. It should be a similar pop up.

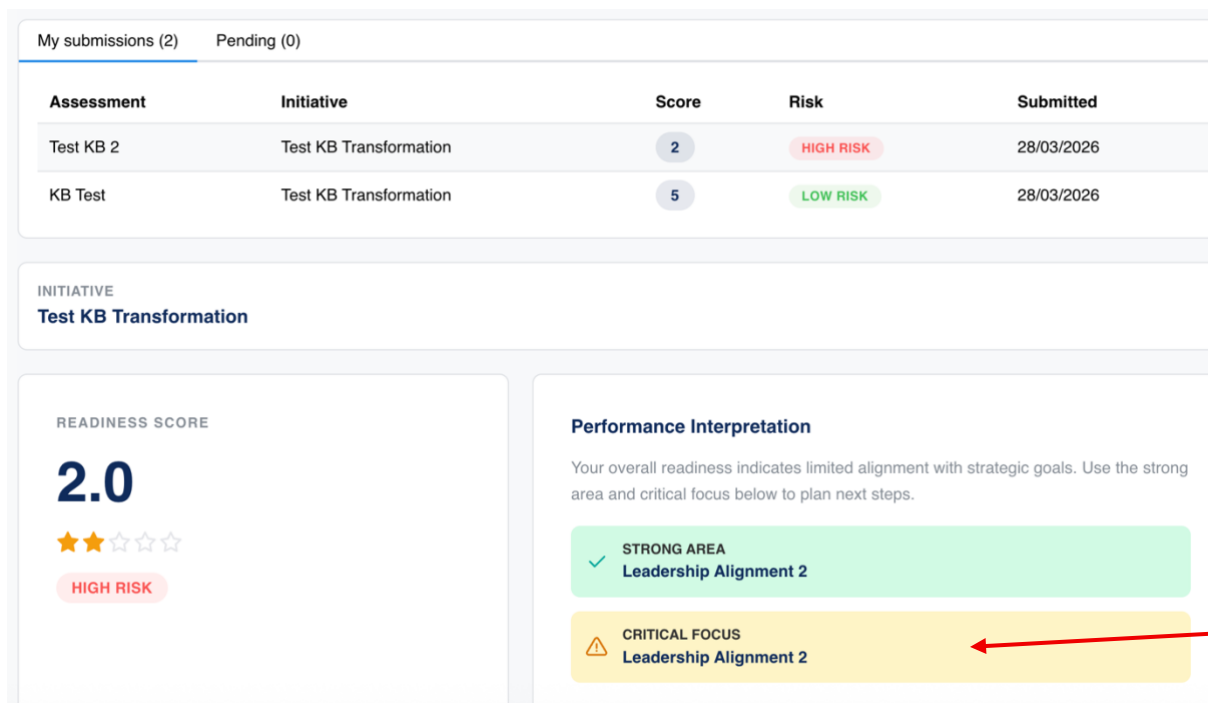

This should be reviewed and determined if to update after UAT.

Tab – Assessments – Create Assessment

-Kara to create assessment templates that companies can use to make it easier. To be uploaded into the platform. (Readiness. Risk. Leadership Alignment. Culture Pulse.)

-Need to better understand the flow for the assessment and the performance interpretation. Critical focus seems off.

Tab – **Change Roadmap**

- How do the tasks go into the various buckets? (Discovery, Awareness, Alignment, etc.)
- Should also show the sponsor of the change on this tab which means it should be added as an option in the initiatives tab for a sponsor of the change to be selected.

Tab – **Stakeholder Mapping**

- KB to validate if this tab is necessary after UAT.
- Ideally it should automatically show the RACI combined for all initiatives as a list or table

Tab – **Communication**

- The communication should be able to push notifications or comms to the selected audience. It should be stored in the app as well as push to their outlook email.
- The audience row should therefore be a drop down for selection based on the various audiences (group or individual) that were set up initially.
- When adding communication, it should also have another button “**Send**” if they are ready to send it to the audience.

The 'Add Communication' dialog box contains the following fields and controls:

- Title ***: Text input field with the value 'Kick Off Test'.
- Type**: Dropdown menu with the value 'Email'.
- Audience**: Text input field with the value 'e.g. All staff'.
- Scheduled date**: Text input field with the value 'Pick date'.
- Status**: Dropdown menu with the value 'Planned'.
- Message / Notes**: Text input field with the value 'Content or notes'.
- Buttons**: 'Cancel' and 'Save' buttons at the bottom.

Tab – Adoption Tracking

No changes currently.

Tab – Risk Monitoring

-This should be more prescriptive/detailed and not just a snapshot. They should see the specific things that are at risk in the initiative.

-----Either the option to click for more details or only show a list of things that are medium and high risk in a table

Eg: Area of Risk | Initiative | Risk Level | Avg Score | Submissions | Last Submitted

Tab – Kudos

-Where does the manager or admin initiate/assign Kudos?

-Also a place holder for now until we can integrate with the actual Kudos platform.

Tab – Knowledge Hub

-Add a section at the bottom that allow persons to click to view Navi generated content/blogs.

Tab – Organization

-Unable to change logo

-Should not be able to change number of employees without Super Admin approval.

-When employee or manager was added as user, no email was sent to them with their credentials.

-----They should be able to upload an excel or CSV file to import all employees and managers to make it easier.

Tab – Settings

-Unable to upload photo to profile

FULL NAVI ASSESSMENT QUESTION BANKS

(FOR SUPER ADMIN & LEADERS)

 **Scale (standard across all)**

- 1 – Strongly Disagree**
- 2 – Disagree**
- 3 – Neutral**
- 4 – Agree**
- 5 – Strongly Agree**

A. PRE-CHANGE ASSESSMENT

Purpose: Readiness + Alignment

N – Navigate Leadership Alignment

- Leadership has a clearly defined vision for this change
- Leaders are aligned on the **purpose and expected outcomes**
- Decision-making authority is clearly defined
- Leaders are aligned on priorities and trade-offs
- Executive sponsorship is visible and active
- Leaders are prepared to address resistance

A – Activate Culture

- Employees understand why this change is necessary
- There is trust in leadership to lead this change
- Employees feel psychologically safe to express concerns
- Change fatigue levels are manageable
- Key influencers are supportive of the change
- Communication about the change is clear and consistent

V – Validate Execution

- Adequate resources are allocated for this change
- Systems and tools can support the change
- Managers are capable of leading their teams through change
- Risks and dependencies have been identified
- There is a clear implementation roadmap
- Accountability for execution is defined

I – Institutionalize Change (Forward-Looking)

- Success metrics for the change are clearly defined
- Reinforcement mechanisms are planned
- Ownership for sustaining the change is assigned
- Performance measures will reflect the change
- Policies/processes will be updated accordingly

B. DURING-CHANGE ASSESSMENT

Purpose: Adoption + Execution Tracking

N – Leadership Alignment (Live)

- Leaders are consistently communicating the change
- Leaders are modeling the desired behaviors
- Leadership messaging is aligned across levels
- Leaders are making timely decisions
- Leaders are visible and accessible during the change

A – Culture Activation (Adoption)

- Employees understand what is expected of them
- Employees are actively engaging with the change
- Resistance is being addressed effectively
- Managers are reinforcing new behaviors
- Employees feel supported during the transition
- Communication remains clear and ongoing

V – Execution Validation

- Milestones are being achieved on time
- Teams are executing tasks effectively
- Systems/processes are functioning as expected
- Issues are escalated and resolved quickly
- There is accountability for delivery
- Cross-functional collaboration is effective

I – Institutionalization (Early Signals)

- New behaviors are starting to become habits
- Teams are adapting to new ways of working
- Informal reinforcement is happening
- Performance expectations reflect the change
- Early wins are being recognized

C. POST-CHANGE ASSESSMENT

Purpose: Sustainability + Impact

N – Leadership Sustainability

- Leaders continue to reinforce the change
- Leadership decisions reflect the new direction
- Leaders hold teams accountable to new standards
- Leadership transitions do not disrupt the change

A – Culture Integration

- New behaviors are consistently demonstrated
- Employees identify with the new way of working
- Old behaviors are no longer dominant
- Engagement levels have improved or remained stable

V – Execution Stability

- Processes are consistently followed
- KPIs show sustained improvement
- Teams operate effectively under the new model
- Operational efficiency has improved

I – Institutionalization (Core)

- The change is embedded in policies and SOPs
- Performance management reflects the change
- Recognition systems reinforce new behaviors
- Training/onboarding reflects the new state
- The change is considered “business as usual”

2. SCORING LOGIC (SaaS ENGINE)

Step 1: Pillar Scores

Each pillar = average of its questions

N Score = avg(N questions)

A Score = avg(A questions)

V Score = avg(V questions)

I Score = avg(I questions)

Step 2: NAVI Index

NAVI Index = (N + A + V + I) / 4

Step 3: Change Health Classification

Score	Status
4.5 – 5.0	Excellent (High Confidence)
3.8 – 4.4	Strong (On Track)
3.0 – 3.7	Moderate (At Risk)
2.0 – 2.9	Weak (Stalled)
< 2.0	Critical (Failing)

Step 4: Dimension Flags

- If any pillar $< 3.0 \rightarrow$ **Critical Risk Area**
- If any pillar $> 4.5 \rightarrow$ **Strength Area**

Step 5: Change-Type Weighting (Advanced)

For SaaS logic:

Change Type	Weight
Culture Transformation	A (35%), N (30%), V (20%), I (15%)
System Implementation	V (40%), N (25%), A (20%), I (15%)
Leadership Change	N (40%), A (25%), V (20%), I (15%)
Enterprise Transformation	Equal weighting

Step 6: Change Size Multiplier

Scope	Adjustment
Team	+ agility weighting (V +10%)
Department	Balanced
Enterprise	+ alignment weighting (N +10%)
National	+ culture weighting (A +10%)

3. DASHBOARD DESIGN (WHAT YOUR PLATFORM SHOWS)

EXECUTIVE VIEW

Top Section

- NAVI Index Score (Big Number)
- Status (Green / Amber / Red)
- Change Type + Scope

NAVI BREAKDOWN (CORE VISUAL)

Think 4 quadrants:

- N – Leadership
- A – Culture
- V – Execution
- I – Sustainability

Radar chart or bar chart

HEATMAP (BY QUESTION)

- Red (<3)
- Amber (3–3.7)
- Green (>3.8)

TREND VIEW (FOR DURING + POST)

- Score over time
- Adoption curve
- Execution stability trend

RISK PANEL

Auto-generated:

- Top 3 risk areas
- At-risk departments
- Leadership misalignment signals

INSIGHT PANEL (AUTO TEXT)

Example:

- “Leadership alignment is strong, but execution capability is lagging.”
- “Cultural resistance is emerging despite strong communication.”

NAVI EMPLOYEE ASSESSMENTS (FOR EMPLOYEES)

Use the SAME NAVI pillars → but translated to employee experience

A. PRE-CHANGE (Employee Readiness)

N – Leadership Alignment (Employee Perception)

- I understand why this change is happening
- Leadership has clearly communicated the purpose
- I trust leadership to lead this change effectively

A – Culture Activation

- I feel open to this change
- I understand how this change will impact me
- I feel comfortable asking questions or raising concerns
- I believe this change is necessary

V – Execution Readiness

- I understand what will be expected of me
- I feel I will receive the training/support needed
- I believe we have the tools to make this change successful

I – Institutionalization (Expectation)

- I believe this change will be sustained over time
- I believe leadership will follow through
- I believe this will become part of how we work

B. DURING CHANGE (Adoption Reality)

N – Leadership Visibility

- Leaders are visible during this change
- Leaders are consistent in their messaging
- Leaders are addressing concerns

A – Culture / Experience

- I feel supported during this change
- I understand what I need to do differently
- I feel confident in my ability to adapt
- My concerns are being heard

V – Execution (Ability)

- I have the tools/resources I need
- I have received sufficient training
- I am able to apply the new way of working
- Issues are resolved quickly

I – Institutionalization (Early Signals)

- The new way of working is becoming normal
- My manager reinforces the change
- I see others adopting the change

C. POST-CHANGE (Sustainability Reality)

N – Leadership Continuity

- Leaders continue to reinforce this change
- Leadership actions reflect the change

A – Culture Integration

- The new way of working feels natural
- I no longer rely on old processes
- I feel confident in the new way of working

V – Execution Stability

- I can consistently perform under the new model
- Processes are clear and effective
- Work feels more efficient

I – Institutionalization

- This change is now “how we work”
- New employees are trained in this way
- The organization reinforces this consistently

CRITICAL: How This Connects to The Dashboard

Dual View

1. Leadership Score

2. Employee Score

Alignment Gap (MOST POWERFUL METRIC)

Alignment Gap = Leadership Score – Employee Score

Interpretation:

Gap	Meaning
------------	----------------

0–0.3	Strong alignment
-------	------------------

0.4–0.8	Perception gap emerging
---------	-------------------------

0.9+	Danger zone (leadership blind spot)
------	--
